ice-cream innovations

Serve the ice creams in a snifter. Notice we say ice creams (plural), meaning, of course, that you depart from the norm and serve a variety of flavors rather than just one. Nice? We think it is. Fresh, too.

How inviting your tray looks with a different ice cream in each brandy snifter (you can use goblets, sherbet glasses, dessert dishes if you're shy of sniffers), each with a different topping.
